

News Release

Chubb Announces Premium Credit for U.S. Auto Policyholders to Reflect Changing Driving Habits Due to the COVID-19 Pandemic

Savings for U.S. personal auto clients to average \$110 per vehicle

CHUBB®

WHITEHOUSE STATION, N.J. April 13, 2020- Chubb is providing its personal auto insurance clients in the U.S. with a credit on annual renewal premiums as a result of reduced driving activity.

Upon renewal, clients will receive a credit reflecting a 35% premium reduction for the months of April and May, with additional discounts for subsequent months, as the situation warrants. Across Chubb's portfolio, the average credit is expected to be \$110 per vehicle. Clients will not have to request the credit, it will be applied automatically at renewal. All premium and rate adjustments are subject to regulatory approval.

"In these rapidly changing times, we have been thinking about our clients and the challenges they are facing. We recognize that there has been a reduction in our clients' driving activity as a result of this pandemic," said Fran O'Brien, Division President, North America Personal Risk Services. "This credit reflects our commitment to providing a fair premium adjustment to our clients, while ensuring they continue to receive Chubb's best-in-class auto coverage."

About Chubb

Chubb is the world's largest publicly traded property and casualty insurance company.
